

Project Preview Documentation Upload

The 2025 Delaware Valley Science Fairs are scheduled to be held in person on Wednesday, April 2nd, at the Greater Philadelphia Expo Center in Oaks, PA. Our judges will be able to review the display and main documentation that is typically presented at the science fair. They will also get a chance to digitally familiarize themselves with your project before judging day.

Our technology allows students, teachers, and judges greater access to information. In addition to the standard SRC paperwork, the display, and full project documentation presented on judging day, we ask students to upload an abridged summary of their project in a Project Preview document. The judges will have digital access to this information prior to fair day. The rest of the project, including your display board and other documentation, will be shared with the judges in person at the fair.

It is important to remember this Project Preview is just a summary of the project, and not the project in full. Please limit this document to the following format guidelines.

Required information

- Fair and Category (grade level and category)
- Abstract
 - The same 250-word abstract that you will be including as part of the project. If the two documents are different it will make your project seem disorganized.
- Project summary – treat this as a sales pitch showing highlights of your project
 - Describe your inspiration for this project
 - Briefly describe elements of the project that excited you
 - This could be unexpected results, new discoveries, or novel methods or devices
 - Briefly describe elements of the project that may have been a detriment
 - Be honest, science is about discovery. Engineering is about creating new things. There is no failure, just the discovery of what didn't work or what might not be true.
 - Briefly describe further areas of research, new applications, or improvements to the experiment/equipment.

Format

- Text only – Black on White
- Two (2) pages maximum
- Minimum font size of 12
- Academic fonts only: Times New Roman, Arial, Calibri, Courier
